DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 6, 7, 13-17 and 29-38, drawn to a curved optical waveguide wherein a core shape of the curved optical waveguide is defined by the equation:

$$y = \sin \pi z$$

Group II, claim(s) 39-48, drawn to a curved optical waveguide wherein a core shape of the curved optical waveguide is defined by the equation:

$$y = z - [(a/\pi) \sin \pi z]$$

It is noted that a may be equal to 1 as required by claim 39.

Group III, claim(s) 22, 23, 26-28, 49, 50-66 drawn to a curved optical waveguide wherein a core shape of the curved optical waveguide is defined by one of the equations, which are the same when $t=1$:

$$y = 1 - \cos[(\pi/2)z]$$

$$y = (1 - t) f(z) + t\{1 - \cos[(\pi/2)z]\}$$

$$y = (1 - t) z + t\{1 - \cos[(\pi/2)z]\}$$

$$y = (1 - t) [z - (a/\pi) \sin \pi z] + t\{1 - \cos[(\pi/2)z]\}$$

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or

corresponding special technical features for the following reasons: Each of Groups I-III define an optical waveguide comprising a core and a clad, wherein a core shape is defined by a different equation for each group of claims set forth above. As optical waveguides are known to comprise both a core and cladding in the art, the inventive concept of each of the groups of claims is considered to be the core shape defined by the respective equations. Since each of the equations is different from the other equations and defines a different core shape, each of Groups I-III comprise a different special technical feature.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
